Product Change Bulletin, #3 of 2006

July 18, 2006

**KMB-18 & 28 Accessory Hard Shell, New Part #520-026
(replaces Part #520-010)**

Now Molded from High Impact ABS Material

Kirby Morgan Dive Systems, Inc. has redesigned its hard shell that works with the KMB-18 and 28 Band Mask®. The new shell is now made from a high impact black ABS material. This is the same material used in the EXO®-26 hard shell. (The hard shell cannot protect the diver's head or neck from crushing injuries or heavy impacts.)

The new Kirby Morgan Hard Shell for the KMB-18& 28 will be available soon, in black only. Order part #520-026.
