\* As of January 1, 1999, all KMB 18B's are manufactured with the large tube SuperFlow® 350 Regulators, part number 505-069, and a new frame part number 520-056. The large tube regulator cannot be retrofitted into pre '99 KMB 18B's without the purchase of a new frame. Small tube fiberglass frames, Part number 520-055, are available as replacement parts (see location #16).

**⚠ CAUTION**

**Use only Kirby Morgan original replacement parts. The use of other manufacturers' parts will interfere with the performance characteristics of your life support equipment and may jeopardize your safety. Additionally, any substitutions will void any warranties offered by KMDSI. When ordering spares, always insist on Kirby Morgan original parts.**
