Anode Kits For KMDSI Helmets And BandMasks®

KMDSI has developed anode kits designed to minimize and reduce the corrosive effects of salt water exposure and to help combat electrolysis when cutting/burning and welding. There are three different kits that cover all the KMDSI Helmets and BandMasks®. The BandMasks® simply use two Zinc whisker plate anodes, P/N 560-300.

Anodes and wires used in the kits

U.S. Retail Prices & Applicable Helmets/BandMasks®:

Part #	Description	Price	Used On
525-374	Zinc Anode Kit	\$60.00	SL27, KM37, KM47, KM57, SL17K
