Change to Product Bulletin No. 2 of 2003 Oct. 27, 2003

Subject: Product Change to Part #550-039 Alignment Sleeve

Products Affected: Kirby Morgan SuperLite-17A/B & U.S. Navy MK-21 Mod. O & Mod. I Helmets

Beginning in November, 2003, all SuperLite 17A/B and MK-21 Helmets will come equipped with a new style Alignment Sleeve. The new part, Part #550-339, has a flange on its outer end which will help to insure that the Rear Hinge Tab Loop cannot become dislodged from its correct position over the Alignment Sleeve. The old style straight sleeve, Part # 550-039 is discontinued and no longer available.

This new part is retrofitable on all older SuperLite 17A/B & MK-21 Helmets. See your local Authorized KMDSI Dealer for price and delivery information.
