## **Bulletin #6 of 2009. October 23, 2009 Discontinuance of P/N 510-510 KMB Hood and P/N 510-506 Pre '85 KMB Hood**

Effective immediately Kirby Morgan Dive Systems, Inc. has discontinued the KMB 18/28 Hood, P/N 510-510 and the KMB 18/28 Pre '85 Hood, P/N 510-506.

Our current P/N 525-740, KMB Hood Assembly with Lock Nuts replaces the earlier style hoods above. It can be used with or without Band Keepers (see kit 525-121) however—*Kirby Morgan strongly recommends upgrading all KMB 18 and 28 Band Masks to Band Keepers.*

**For more information on Band Keepers, see Bulletin #4 of 2003.**

*P/N 525-740 shown above*

Additional kits offered to upgrade your KMB 18/28 units are:

- 525-172 Hood and Band Keeper Kit
- 525-121 Band Keeper Kit, No Hood

All items are shown on your 2009 price lists.

Please contact the sales department at Kirby Morgan if you have additional questions.
