

510-690

Silicone Oral Nasal

Replaces 510-540 and 510-547

A new "universal"
Silicone Oral Nasal
(DSI part # 510-690)

is now available. This new oral nasal fits both the SL-17 & 27 helmets as well as the KMB 18/28 Bandmasks. It is made of a superior silicone material, (grey in color) which is hypo-allergenic and has a longer work life than standard latex. The new design has identical openings on either side allowing the microphone and the valve body to be used on either side according to the helmet or mask it is installed in. The Silicone Oral Nasal is now available as a replacement part, and will ship as the standard oral nasal for DSI helmets and masks beginning August 1, 1996. **Order DSI part #: 510-690 Retail Price: \$40.00**

NOTE: The original latex oral nasals, 510-540 and 510-547, are now limited to stock on hand, and will soon be obsolete.
